FOR CONGRESS.
HON. GEORGE G. GILBERT,
OF SHELBY.

H. H. HENNINGER,
Of Wayne county is a candidate for State
Treasurer, subject to the action of the
Democratic party.

TARIFF reversion as a method of
getting at the Trust directly is a
subject on which President Roose-
velt cannot persist in keeping silent.
He must speak to establish his own
sincerity. The charge is freely
made that his speeches about re-
straining Trusts are only declama-
tion; that he knows nothing can be
done; that his constitutional amend-
ment will take years to get, if it is
ever secured at all. But in cutting
away the tariff protection of Trusts
there is something definite that can
be done immediately. The Repub-
licans of the West are demanding
that it be done. Unless the Presi-
dent is willing to rest under the
suspicion that he is talking clap-
trap for political purposes, and that
he has not really enlisted for a war
against Trusts by every legitimate
weapon, he will have to come out
and take a position on this subject.

THINGS are waxing warm in the
judge's race in the 13th. Judicial
district. A few more hot shot and
the republicans will have it where
they want it, and then Hardin and
Saulsby will both have "to go way
back and sit down." Such a fight
as is being made in that race, and
the number of hard things that are
being said by each side, can promise
no good result. It is to be regret-
ted that so much antagonism exists.
Saulsby and Hardin are both men
of exceptional ability and charac-
ter, and to let the choice fall where
it may, the district would have no
reason to regret it for a moment.
A plea for harmony and not quite
so many "hot shot" would be more
in order just now.

PRESIDENT ROOSEVELT, in his
speech at Chattanooga on last
Monday, quoted the following
lines, which he copied from the
Kentucky Monument erected in
Chickamauga Park, and which
were penned by the hand of ex-
Gov. William O. Bradley: "As we
are united in life, and they united
in death, let one monument per-
petuate their deeds, and one
people, forgetful of all asperities,
forever hold in grateful remem-
brance all the glories of that terrible
conflict which made all men free
and retained every star on the na-
tion's flag."

HON. W. J. BRYAN, in a speech
delivered at Joplin, Mo., said that:
"President Roosevelt has no reme-
dy for the trusts, and every one of
his utterances were perfectly ab-
surd." Mr. Bryan, doubtless acting
upon the theory that one ab-
surdity calls for another, suggests
that the better remedy for this
great evil is "to put one of the trust
magnates in stripes behind the
prison walls." As Uncle Harrison
Carpenter would say, "two much
fool talk," and not enough real
good being done.

The best evidence that the tariff
is a shelter and a foster mother to
the Trusts is the fact that every
time the proposal to revise it is
made the Trusts hold up their
hands in holy horror at the propo-
sition.

WILLIAMS TAYLOR drew his
pistol on a street-car conductor in
Indianapolis, because five cents
fare was demanded of him. Billy
has this thing his way up where
Gov. Dubin stays.

The first echo of Roosevelt's
Pittsburg speech says that Con-
gress will not down the trusts until
the people down Congress.—Bos-
ton Post.

SCRAPS.

(BY JET.)

The humblest individual is a
necessary factor in the world's
economy.

The man who allows disappoint-
ment to discourage him will never
win a place in the pages of history.

But, fellow citizens, it is not so
much what a man says, or the way
he says it, as what he does, that
counts.

Perhaps Mr. Platt has figured out
a plan by which he and Mr. Quay
can throw the trust down and take
the coal mines away from it.

Abner Danton, of Lincolnville
Mass., nearly ninety five years old,
challenges any man of similar age
to run, walk and wrestle with him.

What is to be the largest cotton
mill in the world is to be located
soon near Kansas City. The in-
vestment will reach about \$10,000,000.

There can be no serious question
as to President Roosevelt's ability
as a newsmaker. There is some-
thing doing in his immediate vi-
cinity at all times.

Guide (at the capital)—See that
man across the street? That is the
Speaker of the House.

Jay Green—Dew tell! How long
has that ole woman been dead, huh?

—Your mother always
dropped at meal time.

Benham—I know it, dear;
but—

Benham—Well, I wish you would
tell her that this is no coaling sta-
tion.

Miss Nannie Davis, of Pharos,
W. Va., aged 21, weighs 673
pounds; her height is 5 feet 4 in-
ches, waist measurement 7 feet, arm
28 inches. Her sister, Girdia Da-
vis, weighs 500. Their parents
weigh 135 and 120 respectively.

A French authority estimates
the number of horses in the world
at 74,600,000, and the number of
mules and asses at 12,100,000.
Despite the inroads of the automo-
bile, there is an unusual demand
for draft animals and the prices are
high.

While acting as a peacemaker
Colonel Bryan was almost killed
the other day. The Colonel will
thus get an idea of what is likely
to happen if he should undertake
to haul Mr. Watterson off the
prostrate form of ex-President
Cleveland.

King Victor Emmanuel has or-
dered that the Italian armored
cruiser Carlo Alberto, on board of
which wireless experiments have
been proceeding for some time, be
placed at the further disposal of
William Marconi for experiments
between Europe and America.

"And," muttered the subordi-
nate, "the agent who rented me
that property told me the house
was only 10 minutes from the sta-
tion."

Here he resumes his sprint for
the train, gasping.

"I wonder if he thought I was a
flash of lightning."

"Pop," said farmer Korntop's
boy insinuatingly as he leaned on
his hoe, "Tommy Perkins says the
fish are bitin' right lively up the
creek today."

"Well," replied the old man,
"you tell him if he'll come over
here an' help you with yer hoein'—"
Yes, sir."

"They won't git a chance to bite
him."

An irate subscriber to the COLO-
NEL found a SIGNAL in his box in
place of his favorite paper. He
made a bee line for SIGNAL office.
Holding the editor was out he in-
formed the office devil that he
didn't want any Signal in his'n and
further that some Mt. Vernon par-
ties had sold the republican party
when they turned the COLONEL
over to the purchaser. The devil
answered with a satanic smile; "yes
they are ours."

"These purists in language who
shout so much about grammar al-
ways make me think of the fellow
out in my district who was fishing
off the dock and fell into the wa-
ter," said Representative Beidler,
of Ohio. "Some people nearby
helped him out. Then one of the
rescuers asked: 'How did you
come to fall into the water?' 'I
didn't come to fall into the water,'
replied the man, 'I came to fish.'"
—Times.

September 4.—A few weeks ago
there was discovered to the East of
Frescoe, in the Sierras, the big-
gest tree in the world. At the
time it was said that it measured
150 feet in circumference. John
Muir, the great naturalist, has just
visited the tree, and reports that it
measures at the base only 109 feet
and at four feet above the ground
it was only 97 feet in circumfer-
ence. It is, however, larger than either
"General Sherman" and "General
Grant," which heretofore were the
recognized monarchs of the forest.

Of the visible effects of lightning
stroke upon the human body little
more can be said than that some-
times burns have been noticed and
frequently red markings, which are
localized congestions of the small
blood vessels of the skin. These,
because of the branchings of net-
work, have led to the fanciful idea
of photographs of trees. The effect
of lightning is to cause a temporary
paralysis of the respiration and the
heart beat, which if allowed to con-
tinue will deepen into death, but
when treated in time and in the
proper way will generally pass away.

The Kentucky Colonel, which
was recently launched at Mt. Ver-
non, has been sold to the SIGNAL,
which has been established there
for years. Notwithstanding the
fact that it takes experience to run
a paper, the same as other business,
people will rush in and start them
in the face of certain defeat. It
takes grit and money to run a pa-
per, and lots of both. Mr. Al-
bright is making extensive im-
provements in his plant, and will
enlarge the SIGNAL. He is a
mighty clever boy, and is giving
his people mighty good service.
His efforts should be appreciated.
—Lancaster Record.

An Indiana man at the Treasury
Department, who was being taun-
ted about the nickname of his state,
"Hoosier," gave this explanation
of it: "When the young men on
the Indiana side of the Ohio River
went to Louisville the Kentucky
men boasted over them, calling
them 'new purchase greenies,' and
claiming themselves to be a superi-
or race, half horse, half alligator
and tipped off with snapping turtle.
These taunts produced fights in the
market house and streets of Louis-
ville. On one occasion a stout
bully from Indiana was victor in
a fist fight, and, having heard
Colonel Lehmanowsky lecture on
'The Wars of Europe,' who always
gave martial prowess to the Ger-
man hussars in a fight with the
Russian Cossacks, pronounced hus-
sars 'hoosiers,' the Indianians, when
the Kentuckian cried 'Enough!'
jumped up and said: 'I am a hoos-
ier.' And hence the Indianians
were called by that name. This
was its true origin. I was in the
state when it occurred."

Mother

"My mother was troubled with
consumption for many years. At
last she was given up to die. Then
she tried Ayer's Cherry Pectoral,
and was speedily cured."
D. P. Jolly, Avoca, N. Y.

No matter how hard
your cough or how long
you have had it, Ayer's
Cherry Pectoral is the
best thing you can take.
It's too risky to wait

today, get a bottle of
Ayer's Cherry Pectoral at once.

Consumption

The only kind of consump-
tion to fear is "neglected
consumption."

People are learning that con-
sumption is a curable disease.
It is neglected consumption
that is so often incurable.

At the faintest suspicion of
consumption get a bottle of
Scott's Emulsion and begin
regular doses.

The use of Scott's Emulsion
at once, has, in thousands of
cases, turned the balance in
favor of health.

Neglected consumption does
not exist where Scott's Emul-
sion is.

Prompt use of Scott's Emul-
sion checks the disease while it
can be checked.

The Kentucky State Fair is now
but two weeks off, and with its suc-
cess rests the permanency of a fair
in Kentucky similar to the noble
state exhibitions in Ohio, Illinois,
Indiana, Missouri, etc. If the out-
look can be taken as an augury,
the first annual exhibition will sur-
pass the fondest hopes of the pro-
moters. Letters have been received
from nearly all of the public men
of Kentucky and many of those
who are anxious to become public
men, assuring the association that
they will be here on September 22,
the first day of the fair, and appro-
priately dedicated to "Kentucky".
Gov. Beckham is to attend, and
President Roosevelt is hoped for
and the opening exercises will be
in keeping with the importance of
the occasion.

The first day is assured of an im-
mense crowd. A half rate fare has
been made on all the railroads,
and an admission ticket is attached
to the railroad ticket. The attrac-
tions at the fair in the way of live
stock exhibits will yield to no
State fair in point of excellence.
Kentucky will have the pick of all
the State fairs that proceed her
dates which are peculiarly fortu-
nate.

The fair will last only six days,
beginning on Monday September
22, and closing on Saturday Sep-
tember 27. Numerous side attrac-
tions have been arranged for to
please those who attend. Weber's
Military band, of Cincinnati will
play concerts every day and even-
ing; a thrilling locomotive collision
is on for Monday; an automobile
race with a big field is on for
Wednesday; Thursday is Louisville
day; Friday will see a spectacular
pigeon race, and Saturday is "Ev-
erybody's day."

The intelligence of a Chicago
Newfoundland dog resulted in the
arrest of Edward Callahan. The
boy is accused of having stolen a
newspaper cart from William Cul-
len, a blind boy. Cullen delivers
newspapers on the West Side, and
the dog pulls the cart and leads the
blind venter to his customers.

When the cart was stolen the
blind boy and the dog started to
deliver the papers without it. Af-
ter they had traveled several blocks
the dog dashed into the street be-
side young Callahan who was drag-
ging the lost cart, and barked vio-
lently.

Detectives Voss and Long were
near at hand and arrested the boy.
The prisoner said the cart had been
stolen by his brother.

CROUP
Usually begins with the symp-
toms of a common cold; there is
chilliness, sneezing, sore throat,
not skin, quick pulse, hoarseness
and impeded respiration. Give
frequent small doses of Ballard's
Horehound Syrup, (the child will
cry for it) and at the first sign of a
croupy cough, apply frequently
Ballard's Snow Liniment external-
ly to the throat. 30c at all drug-
gists.

four hundred made seriously ill by

LEVEL GREEN

Well, and it did rain sun. This will revive the grass and help the poor old cow, the poor man's dearest friend among the quadrupeds. The dog is the most faithful and affectionate, while the horse is the most noble and aristocratic. You just dress up a fine fat horse with a new saddle and bridle and then note the difference in his eye and step. His eye will glisten and his step becomes more elastic. Dressing the horse affects him like dressing sun boys I know,—it puts them in a perfect strut.

When I view the horse, cow, dog etc., seriously I almost conclude that they are possessed of reason and an immortal part that will live in eternity.

Is not space, infinite space, great enough to afford room for them an eternal home without interfering with the abode of the human family; and is not our Heavenly father great enough, and merciful enough to so order it if He sees fit to do so?

Now sir, I know that my old possum dog possesses a higher degree of intelligence in his line than some men, and much more genuine principle and honesty.

He will not lie, cheat nor steal. I saw him chastise my other dog for "barking up the wrong tree" and when I take my rifle he trees squirrels, and if my shot gun he will hunt rabbits. At night it's always a possum or a coon. Why sir, he can do almost anything but use articulate sounds. He thinks he reasons, he meditates. Now must all this be lost in death? We think not.

He can intelligently make known his wants, tell us if hungry, if pleased, if angry, if barking up a tree, in a hole, on a trail, and whether "cold or hot," and if by sight. He places a different emphasis on nearly the same language in order to express all these different ideas.

Now if Leather Pate will join me we can convince the world that animals, and especially the dog, have souls, spirits, immortal facts.

Betsy sez i are a fool and that everybody will find it out, and then they would not respect her fur livin' with me.

RAISED FROM THE DEAD.
C. W. Lanis, "Porter" for the Oriental Hotel, Chanute, Kan., says: "I know what it was to suffer with neuralgia deed I did, and I got a bottle of Ballard's Snow Liniment and I was 'raised from the dead.' I tried to get some more, but before I had 'deposited' of my bottle, I was cured entirely. I am tellin' ne truth too," 25c. 50c. and \$1.00 at all Druggists.

A Middlesboro dispatch says—While digging with a pick, preparatory to building the foundation of a house, James Smith unearthed a body in a perfect state of petrification. Smith made inquiry among old residents of Campbell county, where the find was made, and was told that the body was that of John Beverly, who died nearly 100 years ago. It is not known positively that the body is what remains of Beverly, but the place where it was found is said to have been the burying ground of the Beverlys in years gone by, and it is reasonable to suppose that it is the remains of John Beverly, the ancestor of the family. Beverly was a Revolutionary war hero, having won distinction in the battle of King's mountain.

ECHOES FROM LABOR CIRCLES.

Our facetious and at times sarcastic contemporary, the Washington Post, says:

"After showing what a fine thing the Trusts are for the public, the makers of the Republican campaign text book proceeded to demonstrate how the administration is going to smash them."

But bless the Post's innocent soul, the administration has no idea of smashing them. They are in the main responsible for the administration's existence, and the creature will not be so unnatural as to destroy its creator. And of the facts in the case, no one is better nor more fully informed than the Post.

The "full dinner-pail" is credited with having a good deal to do with Republican success in 1900.

The "meatless dinner-pail" may prove a factor in 1902.

Republican splendor in this year's campaign will have an interesting time of it explaining the brand of prosperity the country is now enjoying, with its tremendous increase in the cost of living and the paltry advances in wages.

All accounts that come to us from the scenes of the coal strike assert that danger of lawlessness is to be apprehended only from "the ignorant, illiterate and vicious foreigners." Who is responsible for the presence of that dangerous element?

Babcock has gone back on his tariff professions. We thought he would. Doubtless the bluff had the desired effect, and the Trusts are now tumbling over each other to subscribe to Joe's campaign fund.

The "Badger" game still lives and flourishes.

Every workman who thinks he has had his share of the "unusual prosperity" will probably vote for Republican Congressmen this fall.

A few others may fail to see it in that light.—Knights of Labor Labor Journal.

Hall's Family Pills are the best.

President Roosevelt attended a national meeting of the Brotherhood of Firemen at Chattanooga, and was elected an honorary member of that organization.

There are two ways of bringing up boys. The one always keeps a gulf between father and son. The parent forgets that there was a time when he, too, was care-free; when laughter came at command and the days were not long enough to contain all the pleasure that offered. He forgets that ORDERS hurt and that kindly counsel is better than harshness. He forgets that a boy's world is not a man's world, and so a man and a boy drift farther apart. They are almost strangers. They don't understand each other, and doubt and distrust help to harden the life of a boy who often wonders why "father" isn't as good to him as "mother." It is the man's fault. There is not one boy in a hundred who can not be won by kindness.

You spend weeks learning the methods and feelings of a \$200 colt, and are too busy to look into the heart of a boy who is worth more than all the horse flesh in the world.

Then there is the John W. Gates kind of a man, the chum of a boy. He goes swimming with the lad. They hunt together. You can find them at the mistle show in front seats, and laughing together. The "old man" gets out in the road and plays catch till his bones protest, because it pleases his chum. They take long rides and walks together and the boy finds new interest in life and loves his father deeply. Does it pay?

DEVoured BY WORMS.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inattention, their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at all druggists.

Those people who are looking for perfection in this world should avoid mirrors.

FORTUNE FAVORS A TEXAN.

"Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennedale, Tex., "and soon felt like a new man." Infallible in stomach and liver troubles. Only 25c at all druggists.

Somebody has "thrown up" to Colonel Watson that a Democratic National Convention once nominated Mr. Cleveland because of the enemies he had the good taste to make. Oh, yes; but that was the first time.

An exchange doubts if Jeffries, the pugilist, could have drawn larger crowds in New England than President Roosevelt did. Perhaps the advantage of Jeffries' favor would be in the fact that he doesn't make speeches.
